

**Name:** Alex Rivera

**Email:** alex.rivera@example.com

**Phone:** +63 912 345 6789

**Location:** Manila, Philippines

## Professional Summary

AI Engineer with 5+ years of experience in machine learning, deep learning, and NLP. Skilled in building scalable AI solutions and deploying models in production environments.

## Skills

- Programming: Python, TensorFlow, PyTorch, Scikit-learn
- NLP: Transformers, BERT, GPT-based models
- Data Engineering: SQL, Pandas, Spark
- Cloud: Azure AI, AWS SageMaker
- MLOps: MLflow, Docker, Kubernetes

## Experience

### AI Engineer | TechNova Solutions | Jan 2021 – Present

- Designed and deployed NLP models for customer support automation, reducing response time by 40%.
- Implemented ML pipelines using Azure ML and Kubernetes for scalable deployment.
- Collaborated with data scientists and DevOps teams to optimize model performance.

### Machine Learning Specialist | DataWorks Inc. | Jun 2018 – Dec 2020

- Developed predictive models for financial risk assessment using Python and Scikit-learn.
- Built data preprocessing workflows for large datasets (10M+ records).

## Education

- B.S. in Computer Science, University of the Philippines (2017)
-
